Intell-i-Watch Uniscreen VDM

Multi-Sensor Transmitter Monitors

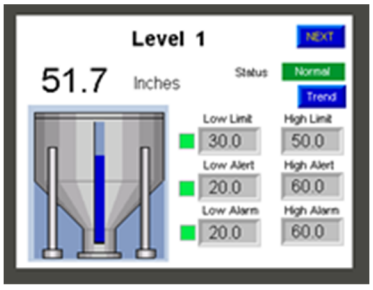

Monitor (partial list)

- pH/ORP
- Flow
- Level
- DO
- Pressure
- Temperature
- Sludge
- Turbidity
- TDS
- Ammonium
- Phosphorus
- Leak detect
- BOD/COD
- Motor conditions
- HVAC
- Load balance
- Pumps
- Blowers
- Mixers
- Valves
- Tank inventory
- Aerators
- Data
- Air flow
- Compressors
- Safety devices

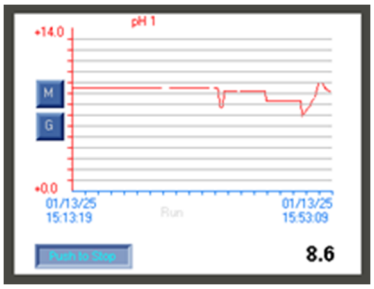

Features

Model	Uniscreen VDM (Virtual Display Monitor)
Analog inputs	4+
Digital inputs/outputs	4+ / 4
Sensor channels	8+ (simultaneous sensor inputs)
Installation location	Indoor/outdoor
Operator interface	Your computer, tablet, phone or our optional tablet
Networking	Ethernet provided (10/100 Mbps)
Datalogging capacity	32 GB
Keyboard	Virtual, displays on input
Mount style	Back mount 4-hole, optional mount brackets

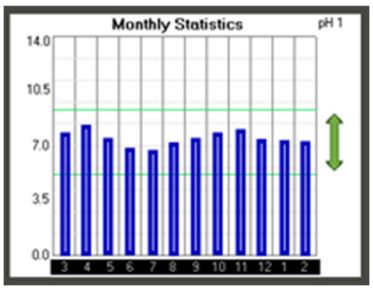

Mechanical

Enclosure	Powder coat enamel, steel
Rating	NEMA 4 / IP66
Dimensions	10” X 10” X 6”
Weight	12 Lbs
Display dims / resolution	Based on your screen or our provided optional tablet
Storage	SD, 32GB / flash 32GB, (SSD optional)
Temperature range	32° - 122° F (0° - 50° C) operating
Relative humidity	10% to 95% (non-condensing)

Electronics

Supply voltage	115Vac/1pH/60/50Hz, 1.5A
Power consumption	≤ 690mA @ 24 VDC
Display	Based on your screen
Ports	USB/RS232/RS485
Battery	Coin type, 3V, lithium, CR2450, 5 years
Controller type	Microprocessor controlled menu driven
Digital outputs	4
Expandable	Yes, channels, I/O and other elements

Intell-i-Watch Uniscreen VDM: Is a highly flexible, interactive data collection/concentration platform for monitoring 4 to 44+ simultaneous sensor inputs for industrial, municipal, commercial, military and any facility with monitoring/alerting/data logging and analysis requirements for sensing with water, process equipment, infrastructure devices and systems, energy devices and systems for generation/distribution/storage and consumption, equipment, machinery, motors and many other sensing sources.

In order to provide specialty monitoring solutions tailored to multiple application classes we’ve divided the Watch models into the following solution groups: Water, Data, Energy, Equipment, Infrastructure
By tailoring the models to a range of specific applications we can create solutions designed to target the needs of that target grouping.

To discuss your application and define the best model, sensors and accessories for your use, call us today.
